

# CMS

The logo for CMS (Compact Muon Solenoid) features a stylized cross-section of the detector. It consists of several concentric, semi-circular layers in light blue, yellow, and light green. From the bottom-left corner, four thick red lines curve upwards and to the right, representing particle tracks. The text 'CMS' is written in a large, dark blue, serif font across the top of the light blue layer.

Compact Muon Solenoid

CMS

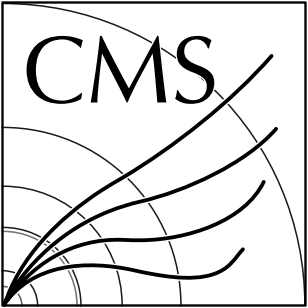

The logo features the acronym 'CMS' in a large, bold, black serif font at the top. Below it, several thick black lines represent particle tracks, curving upwards and to the right. The background consists of thin, concentric circular lines, suggesting a detector structure. The entire design is enclosed in a thin black rectangular border.

# CMS

The logo features the acronym 'CMS' in a large, bold, black sans-serif font. The background is white and is decorated with several concentric, semi-circular arcs in various colors: red, orange, yellow, green, and blue. Overlaid on these are several thick, magenta-colored curved lines that sweep across the lower half of the image from left to right.

Compact Muon Solenoid

CMS

The logo features a semi-circular background divided into concentric segments of red, orange, yellow, green, and blue. Overlaid on this are several thick, pink, wavy lines that represent particle tracks. The text 'CMS' is prominently displayed in the upper left quadrant.

COMBINE

The logo features the text 'CMS' in a large, bold, black serif font at the top, and 'COMBINE' in a smaller, black serif font directly below it. The background is white with several black curved lines representing particle tracks. Two prominent red lines are overlaid: a solid red line that forms a wide, shallow curve, and a dashed red line that forms a steeper, narrower curve. The entire composition is enclosed in a thin black rectangular border.
